Texas Emigration and Land Company! 320 Acres of Land for \$20---160 Acres of Land for \$10.

THE TEXAS EMIGRATION AND LAND COMPANY having derived their Grant from the late Republic of Texas, by contracts made with the President thereof, under authority of the special acts of Congress, approved 4th February, 1841, and 16th January, 1843, granting lands to Emigrants, will continue to give 120 acres of land to families, and 160 acres of land to single men over 17 years of age, until the 1st day of July, 1848, conditioned that the family shall pay \$20, and the single man \$10, for the surveying fees. A family, as defined in our Contracts, must consist of—

of—
"A man and his wife, with or without children."
"A widower with two or more children; if males under 17 years of age, if females, unmarried."
"A widow with two or more children; if males under 17 years of age, if females, unmarried."
"Two single men over the age of seventeen years, each one being entitled to 169 acres."
On his arrival in the Colony, the Emigrants should forthwith apply to the Agent of the Company, Mr. Henry O. Hedgeoxe, residing at Stewartsville, in Denton county, who will at all times be ready to assist him in the selection of his land, and enter the same on books kept for that purpose, and give him a certificate ame on books kept for that purpose, and give him a certificate herefor; which certificate will be evidence of his having settled

same on books kept for that purpose, and give him a certificate therefor; which certificate will be evidence of his having settled in the Colony in due time.

Our Grant lies in the North-Eastern part of Texas, between the 32nd and 34th degrees of Latitude North, and 19th and 32nd degrees of Longitude West, from Washington; beginning on the south side of Red River, at a point 12 miles east of the False Ouachitta, running thence due South 100 miles, thence East 164 miles, thence North 100 miles, thence West 164 miles to the beginning, having a front on the meanderings of Red River of nearly 300 miles; and includes within its limits the upper and lower Cross Timbers, and the head waters of the Brasos and Trinity Rivers, the Trinity being navigable for Steam Boats of light draught, from the interior of the Colony to the Gulf of Mexico, into which it empties, some 25 miles from Galveston, and Red River, to the Mississippi, affording an outlet for the surplus productions of the country. This portion of Texas is peculiarly adapted to the growth of wheat, experience within the last two years having tested the fact, that it will produce 40 bushels to the acre, weighing 65 to 70 pounds to the bushel. Indian corn, rye, barley, oats, sweet and Irish potatoes, peas, beans, melons, garden vegetables of all kinds, cotton, hemp and tobacco, and the celebrated muskeet grass which covers the prairies and upon which cattle subsist, and keep fat during the winter, and require only to be occasionally salted and kept together, to rear them in great numbers.

The planting season commences in February and continues The planting season commences in February and continues

The planting season commences in February and continues until July.

Colonel William Myers, who removed there from Garrard County, Ky., last fall, says, in a letter dated 8th May, 1847.—

"I will not venture to tell my friends in Kentucky that the land here was better than the best land in Kentucky, because they would not believe it; but now I assert it, for the soil is deeper, being in many places five feet, and the kindest land to work I ever put a plough in. I verily believe that around the forks of the Trinity, lies the largest body of first-rate land in America."

Let no Emigrant loose sight of the important fact, that our contracts with the Government of Texas expire on the 1st day of July, 1848, and that he must not only be in the Colony, but that he must have selected his land, built a house or cabin thereon, and he residing therein with his family by that day;—one day after that date, and the opportunity of getting lands for nothing is, perhaps, lost for ever. Persons desiring additional information, by addressing the undersigned Trustees or either of them, post paid, shall receive prompt attention.

Prospectus of the Christian Mirror.

Prospectus of the Christian Mirror.

This paper will be devoted to the discovery, illustration, and defence of truth—to the advocacy of whatsoever things are pure, lovely, and of good report. So far as it may be deemed expedient to give it a local character, it will aim more especially, to promote the interests of Apostolic Christianity in Kentucky. But a brief outline of its intended course, can be here sketched. I. A candid and thorough examination of the questions involved in Church Organization and Co-operation, will be attempted. The Bible Society question will be considered. Much investigation of these subjects is yet demanded. Let no one deprecate discussion. In the midst of society in rapid progress, it is unavoidable, and is to be unvited, rather than repelled. It is not discussion that is dreaded, but those angry personalities, into which, even religious discussions too often descend. Nothing of these last, shall ever have a place on the pages of the Mirror. In general, nothing that can be personally offensive to any one, will be admitted, unless the defence of the community against imposture, shall urgently demand it.

II. To furnish entertaining and instructive reading for the younger members of churches, being not the least important aim of our paper, we shall attempt, for their advantage especially, a brief exposition of the elementary principles, and ultimate aims of the Reformation.

III. The subject of Education in general, and of Female Education in particular, will receive such attention as we may be able to give. Hints, as to the best mode of instructing a family in the Sacred Scriptures, will be offered.

IV. Condensed reports from Churches and Evangelists, reports of State, Annual, and Co-operation meetings will be published; and any advertisement required by the common interests of the churches.

V. We shall endeavor to record in a few lines, the principal religious events of the times

From the N. O. Picayune, Dec. 18. Arrival of Steamer Maria Burt. INTERESTING NEWS FROM MEXICO.

The U. S. steamer Maria Burt, arrived last evening from Vera Cruz, whence she sailed on the 5th inst. The news communicated by Capt. Tucker, of the Virginia, and by our own correspondent in regard to this vessel, would appear to be authentic.

By the Maria Burt we have received letters and papers from the city of Mexico to the 27th of Nov. The most interesting matter referred to in them is by far, the arrests of Worth, Pillow, and Duncan. It appears that Gen. Twiggs was to have come down with the train from Mexico, leaving on the 2d or 3d inst., but, in consequence of the arrest of Gen. Worth, he was detained.

The occupation of Mazatlan and Guaymas by our naval forces is mentioned elsewhere. From Lower California the dates are to the 3d of October. The Mexicans claim an advantage over a party of Americans which landed at Mulege, fought all day, and finally embarked again. The Mexicans claim a vic-We do not well understand the affair, but have no idea of their winning victories from our sailors.

MEXICO, Nov. 20, 1847.

A correspondent of El Monitor, writing from Queretaro, says that the greater part of the Governors of the different States were present at the seat of government, and that with one exception (the Governor of San Luis,) they were unanimous in favor of peace. The sessions were soon to commence, and President Anaya proposes that no line of policy on States suggest, in order to get at once at the national acerbity of temper:

General Bustamente has been nominated by the Supreme Government, general-in-chief of the army of reserve, and commandant-general of the State. His predecessor, Guiterrez, is second in command, and Cortizer next.

El Monitor of to-day, commenting upon the announcement of Santa Anna, that he had placed himself at the head of an armed force for the purpose of preventing any negotiations for peace while the Americans occupied Mexican territory, discredits the statement, and says that he (Santa Anna) opened the door for negotiation himself, and that, if he opposes Congress in the consummation of peace, he will be pulling down with one hand what he had constructed with the other. The paragraph appeared in El Progresso, published in Guanajuato, and I should think that by this time the editor of El Monitor had become sufficiently acquainted with Santa Anna's thirst for power not to be surprised at any measures he might take to secure it.

This rumor has been gaining strength, and the Monitor, of this morning, refers to it as being true, and threatens to publish the names of the seceders, some of whom, it says, are now actually in this city. I hear, also, from a private source, that as soon as Anaya found out their object he expressed his determination to arrest the delinquent members and compel them to attend to Union, whence we copied it on the 8th October, their duties, in consequence of which some of them with some introductory remarks, and the whole then left Queretaro in a hurry. Mexico, Nov. 25, 1847.

The mail from the interior last evening brought papers from Guadalajara, Morelia, and Guanajuato, of late dates, but they contain nothing of interest. Most of the papers are down upon Santa Anna in severe terms for his conduct in declaring himself determined to oppose negotiations for peace. El Progresso, of Guanajuato, is absolutely savage in its denunciations, and declares that he should be made to answer with his head for his treason. A few short months ago, these same editors were fawning upon the "Hero of San Jacinto" with sickening sycophancy. How true it is that success is the test of merit.

A communication was received from Queretaro yesterday from the English secretary of legation, Mr. Thornton, covering a protest from Lord Palmerston against the forcible levying of taxes upon English residents in Mexico to support the war with the United State. These levies were made some six months since, and the English residents petitioned against it. The protest is said to be couched in very severe terms.

WAR DEPARTMENT, Washington, Jan. 28, 1847.

The President of the United States directs that paragraph 650 of the General Regulations for the army, established on the 1st of March, 1825, and not included among those published January 25, 1841, be now published, and that its observance as a part of the general regulations be strictly enjoined upon the army. The following is the paragraph of the general regulations for the army, established on the 1st of March, 1825, referred to above:

They are, therefore, strictly forbidden; and any officer found guilty of making such report for publication, without special permission, or of placing the writing beyond his control, so that it finds its way to the press, within one month after the termination of the campaign to which it relates, shall be dismissed from the service.'

From the Maysville Eagle Extre, of Dec. 29. DREADFUL STEAMBOAT DISASTER.

Total destruction of the steamer A. N. Johnson and all her cargo; eighty lives lost; great suffering; twenty three horses burnt.

We are called to record the most agonizing scene of destruction we have ever witnessed, and such as we hope never to see again. The steamer A. N JOHNSON, Captain Abram Bennett, this splendid new Wheeling and Cincinnati packet, on her first trip up last night, when about ten miles above this city, at 11 o'clock, blew up with a tremendous explosion, reducing to a wreck the whole boat forward of the wheel house. The boat took fire immediately, and

burned to the water's edge. The news of the disaster was brought to Maysville by three passengers in a skiff, at an early hour this morning. As soon as the steamer Dan'l. Boone, which had just come up through the ice, with nearly all her buckets broke, could be sufficiently repaired, about 100 of our citizens-committees from the Masons', 2 Lodges of Odd Fellows, 3 Divisions of Sons of Temperance, Oriental Evanics, and on the part of the citizens-as many as it was thought could be useful, repaired on board, and reached the scene of destruction about half past twelve o'clock this morning. All had been done before that, that could be done, by Messrs. Granville Dye, Geo. F. Wilson, Andrew and C. Wilson, at whose houses the sufferers lay, as well as by the neighbors, and by a dozen or more from Maysville, who had gone up on horseback. Every preparation was made for their comfort and relief that could be, and Drs. Adamson, Tebbs, Sharpe, Frazee, Davis, Paddock and Sutherland were active in applying remedies. The patients were removed to the boat, which reached the city by half past four o'clock. Nothing has been omitted by our citizens, which human foresight could suggest or human agency accomplish, and they will ever feel proud at the remembrance of such duty done.

As well as can be ascertained, there were near one hundred and ninety persons aboard, of whom about 110 are known to be saved. We present below as full a list of all-officers, crew and passengers-as could be ascertained after the most diligent search. We publish the saved, that the friends of the lost

A TERRIFIC SCENE AT A MENAGERIE-ESCAPE OF THE ELEPHANT COLUMBUS .- One of the elephants in Raymond and Waring's extensive menagerie, exhibiting in Philadelphia, turned on his keeper on Wednesday last. We find the following particulars in the Philadelphia papers:

As his keeper, Wm. Kelly, was preparing him for the afternoon performances, and in consequence of being struck, he seized Mr. K. with his trunk and raising him into the air dashed him twice to the ground with the utmost violence, breaking his right eg and thigh in a most shocking manner, and causng many other very serious injuries. The peculiar cry of the enraged animal, as he seized Mr. Keliy, warned those in the other part of the building of what was going on, and rushing to the quarter where the elephant was kept they succeeded in snatching the wounded man out of the way as he was about being seized a third time. The elephant then comnenced a regular demolition of every thing within his reach, tearing a number of cages to atoms and hurling their fragments in every direction. At this time the utmost terror and excitement pre-

vailed. The furious animal, on first coming from his quarters, proceeded round the room as if in search of some one, and then returning seized with his trunk a large cage, containing two hyenas, a wolf, a jackall, and some twenty monkeys, carried it into the room, and, after whirling it a moment in the air, dashed it into a thousand fragments upon the floor, scattering the animals and killing some of the smaller ones. Some ran away and hid themselves, while others, terror-stricken and furious, ran about the room howling hideously. Two elephant-dogs were then procured and thrown into the ring. These dogs are used in India to hunt the elephant, and are there trained to avoid his feet and trunk while they actively fly about, attacking him in the most vulnerable parts, and holding him until he can be secured But on this occasion they were both struck by the Abram Bennett, Captain and little son, unhurt. elephant and so maimed as to be entirely useless. At length a plan was suggested, which proved successful. But the animal, now more furious than ever, ran towards the boxes which descend from the ascend, crushed the steps, &c. to atoms with his immense weight, tearing up the benches on either side of him, hurling the pieces at the same time in every direction, and leaving the place a perfect wreck. adroitly fastened into his ears, and he was then hauled up into the recess before mentioned, where, by the self-possession and courage of Herr Driesbach Robert Russel, Ohio; John Kenline, Ohio; H. he was completely subdued. Were read for information:

1. Resolved, That among the highest duties that can devolve upon the Representatives of the People, is the preservation of the national integrity, a strict observance of the limitations of the Constitution, and a firm resistance to Executive encroachment.

2. Resolved, That any war which has for its object the acquisition of territory by conquest, brings into question the national character, is in violation of the constitution of the United States, in conflict with the genius and spirit of our institutions, and dangerous to the perpetuity of the Union.

3. Resolved, That the war in which we are now engaged, was not brought on by the act of Mexico.

Resolved, That our institutions, founded on the rights of man, repudiate the doctrine that "might makes right," as the freebooter's plea and the pirate's law; and so long as we offer an asylum to the oppressed, and recognize "life, liberty and the pursuit of happiness" among the linaliceable rights of man, we cannot insist upon the dismemberment of an empire as the price of mance.

14. Resolved. That if it shall be determined by the People, brough their Representatives, that this war shall be further proscuted in Mexico, it then becomes the duty of all parties to proct our national flag and brave army, by furnishing all needful upplies of men and money to carry it on with vigor and effect. Mr. THOMPSON, of Indiana, offered the following:

Mr. Thompson, of Indiana, offered the following:

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled. That, in the opinion of Congress, the President of the United States should forth with cause to be communicated to the Government of Mexico, that peace may be immediately established between the two countries upon the following terns, to wit:

First. That the boundary line between the United States and Mexico, shall be as follows, to-wit: beginning at the Gulf of Mexico, near the mouth of the Rio Nueces, and running thence northwest with the course of said Rio Nueces, so as to include all the Texan settlements south and west of said river, made prior to the annexation of Texas to the United States; thence up said Rio Nueces, until it reaches the line which separated the Province of Texas, before her independence, from the Provinces of New Mexico, Coahuila, and Tamaulipas; and thence along said line, to the Rio Roxo or Red river.

Second. That the Government of the United States, disavowing the intention of acquiring or holding the same by conquest, will purchase from Mexico, with the consent of the Government of Mexico, the territory embraced within the following boudary, to-wit: beginning at a point on the Gulf of Mexico as near as may be to the centre of the great desert or prairie which lies between the waters of the Rio Grande and the Rio Nueces; thence, following the course of the centre of the said desert or prairie, northwest, to the range of mountains which divide the waters of the Rio Grande from , hose that run eastward to the Gulf of Mexico, and pursuing said range of mountains until it strikes the line of north latitude 36 degrees: 0 minutes: thence by that parallel of latitude, west. to the Pacific Ocean, so as to include within the United States the bay and city of Monterey, in Upper California.

Third. That, in consideration of the cession of the territory

the United States the bay and city of Montercy, in Upper California.

Third. That, in consideration of the cession of the territory embraced within the foregoing boundary, the Government of the United States shall pay to the Government of Mexico such sum of money as may be agreed upon by and between Commissioners to be appointed upon the part of each Government: Provided, That there shall be deducted out of the sum so agreed on, whatever amount may have been due by Mexico to the United States before the commencement of the war, if the sum so agreed on shall exceed the amount so found to be due to the United States. Fourth. That the Government of the United States shall ask from the Government of Mexico no indemnity whatsoever for the expenses of the war.

Fifth. That, so soon as a treaty of peace shall have been made and ratified by and between the two Governments, the army of the United States shall be withdrawn from every portion of the territory of Mexico now or at that time in its possession.

Sixth That the Government of the United States will guaranty to the Government of Mexico that all persons, now citizens of Mexico, who possess property within the territory thus proposed to be ceded to the United States, and enjoy the same under the laws and institutions of the United States.

Mr. Toombs, of Georgia, offered the following: Resolved, That meither the honor nor the interest of this Re-ublic, demands the dismemberment of Mexico, or the annexa-ion of any portion of her territory to the United States as an in-ispensible condition to the restoration of peace.

Mr. VANDYKE said he too had some resolutions which he desired to have read.

The CLERK read them, as follows:

The CLERK read them, as follows:

Resolved, That, in the opinion of this House, the order of this Government that General Taylor with his army should take position on the bank of the Rio Grande, which resulted in the blockade of that river and the pointing of the guns of the United States upon a Mexican town on the other side, was unnecssary, and unwise, was an act of aggression in itself, and the immediate cause of conflict between the two nations.

Resolved, That the invasion of the territories of Mexico south and west of the Rio Grande, either by sea or by land, and the storming and capturing of her towns and the slaying of her people within such territories, were acts of injustice, cruelty, and wrong; and that the requiring of Mexico, at the peril of her national existence, to enter into treaty stipulations with us, while her country is surrounded by our navy, her capital and chief towns in our possession, her country subjugated, and her people crushed and prostrate beneath our power, and with our resistless

Resolved, That the present war with Mexico should not be prosecuted any further for any purpose whatever; that the whole of our forces in the Mexican country should be withdrawn as speedily as possible, and placed on territory which belongs to this country; and that the Administration be furnished with all the men and money necessary to protect our troops now in Mexico, and to accomplish such withdrawal in the most practicable way, without harm or danger.

Resolved. That, after the withdrawal of our troops as aforesaid east of the Rio Grande the President of the United States be requested to send a Commissioner or Commissioners to Mexico to settle the question of boundary between this country and Mexico, together with such other questions as may properly come before them.

The foregoing resolutions were read merely for the information of the House, the previous question having been demanded upon the resolutions of Mr. Richardson. It being understood that several gentlemen desired to debate the latter, the resolutions and amendments, under the rule, laid over.

THE DIFFICULTIES AMONG OUR GENERALS .- In publishing the following letter we wish it distinctly understood that we assume no responsibility for its statements, and take no part whatever in the unhappy quarrel which has broken out between our high officers. We give the letter for what it is worth.-N. O. Delta.

VERA CRUZ, December 4, 1847.

A lamentable feeling pervades the army at Mexico, owing to jealousies and heartburnings, envy and malice, and political prejudices. Gen. Scott has arrested Pillow and Worth. The circumstances which led to this step are believed to be these: Two letters, emanating from the American camp, published in the U. States, have been read by Gen. Scott. In an order published to the army he prematurely decides who wrote them, and most bunglingly impeached the honor, patriotism, and services of the two Generals, who are eulogised in these letters.

One of the Generals (Pillow) denies, in a card published in Mexico, the authorship of the letter attributed to his pen by Gen. Scott. The other General (Worth) prefers charges against Scott, and Scott arrests him for contempt. Gen. Pillow was arrested because he appealed from an opinion of Scott, requesting the latter to transmit the appeal to the Secretary of War. Scott refused in a hasty manner; whereupon, the former remarked "I will do it, sir." 'Then, I arrest you, sir," was Scott's reply. So matters stand at last dates.

The army is excited, and if we may judge from what we hear at this distance, more than a moiety of it sympathizes with the Generals sought to be dis-It is said that on a visit to the theatre by Gen. Pillow, an audience of over 3,000 being pres ent, he received three hearty cheers; immediately after which the audience gave three more for Gen. Worth. This looks as though these Generals were not disgraced in the eyes of the army-that same glorious army that has earned for itself the name of

4. Resolved, That the war with Mexico was brought on by the unauthorized act of the President of the United States, in ordering the army under the command of General Taylor into territory then in possession of the Mexican Republic.

5. Resolved, That we have no right to claim indemnity for the expenses of a war brought on by the ill-advised and unprovoked act of our own public functionaries.

6. Resolved, That the honor of this nation does not consist in exacting territory from Mexico, to which we have no claim, and yielding to Great Britain territory the title to which was asserted to be "clear and unquestionable;" and that to evade the strong and pursue the weak, does not present the honor, courage, or greatness of our people in their true light.

7. Resolved, That to exact indemnity from Mexico, would devolve upon us the necessity of making a similar demand in all future wars, which would involve us in interminable conflict, or of surrendering a principle now insisted on as indispensable to the preservation of our national honor.

8. Resolved, That no new territory can be annexed to the United States by virtue of the war, without involving the agitation of odmestic difficulties, begetting sectional ammostities, and weakening the ties that connect us together.

9. Resolved, That it file conquest of territory be not the object of the war, we can perceive no good reason for continuing our troops in the heart of the enemy's country, by which their lives are unnecessarily exposed, and our resources uselessly expended.

10. Resolved, That it a conquering nation has nothing to apprehend from an exhibition of magnanimity and generosity to a defeated foe; and that a victorious army may retire from the pursuit of carnage and slaughter without incurring the imputation of retreating from the scattered and discomflited forces of the enemy.

LIFE INSURANCE.

NAUTILUS (MUTUAL LIFE) INSURANCE COMPA-NY, No. 29, WALL STREET, NEW YORK.

NY, No. 29, WALL STREET, NEW YORK.

THIS Company, which confines its business exclusively to Life Insurance, has now been in operation two years and a half, during which period it has issued 15:3 policies, and for the first eighteen months it experienced no loss. Its losses for the whole time have been less than \$18,000—leaving an accumulation of about \$55,000 on hand, beyond the payment of claims and expenses. This, added to the original guaranty cap ital of \$50,000, places the security of the Company on a basis so solid as no longer to admit of a rational doubt.

All its profits accrue to the credit of the dealers, and are divided annually among them, whether the policy be issued for a limited period or for the whole term of life, a feature unknown in the charter of any other Mutual Life Insurance Company incorporated by this State.

Two dividends of 50 per cent, each, on the amount of premiums received, in accordance with the provisions of the charter, have been declared, and are credited to the accounts of the assured, and for which scrip certificates will be issued.

A dividend of 6 per cent, on the first year scrip has likewise been declared, payable in cash, to the holders thereof on Demann, at the office of the Company.

For policies granted for the whole term of life, when the premium therefor amounts to \$50—a note for 40 per cent with interest at 6 per cent,—without guaranty, may be received in part payment, or it may be paid in cash, in which case it is expected, should the party survive to make 13 annual payments, leaving the dividends to accumulate—the policy will be fully paid for, and the accumulation ultimately added to the policy.

For further information, the public are referred to the pamph lets, and forms of proposal, which may be obtained at the office of the Company, or any of its Agencies.

Military duties will not be permitted to interfere with the pupit's progress in study, but will rather take the place of his unprofitable, and often, vicious play.

The course of study adopted, and which will be required in order to graduation, is that usually taught in the best Colleges, except that but one language is required, (Latin or French,) the time usually occupied by the second, being devoted to a more extended course in Mathematics, Natural Science and English Literature. erature.

A Preparatory Department is organized in connection with the Institute, in which boys of any age are taken, and are subjected to the same Military discipline as the Cadets.

The position of the Institute, at the Franklin Springs, near Frankfort, Kentucky, (recently occupied by the Franklin Institute,) is admirably adapted in every respect to Academical purposes; the locality being airy and healthy, the mineral waters salubrions, the buildings elegant, extensive and commodious, and entirely apart from the contamination and multiplied malien influences, which seem inseparable from a city or village residence.

The Institution is placed under the charge of Col. R. T. P. ALLEN, as Superintensent, who has been brought prominently before the public, as a competent and successful teacher and governor of youth, by his honorable graduation at the United States Military Academy; his subsequent connection with the Army, and with the Engineering Service of the General Government, as Superintendent of public works; by his long experience as an Instructor, by his recent connection with the Transylvania University.

The Academic Year will be divided into two Sessions.

Applicants for admission, on paying the charge of the Institute, and presenting a certificate of good moral character, will be admitted into the classes as their advancement may justify, and upon satisfactorily passing the next examination thereafter, will be entitled to a warrant of appointment, as Cadet, from the Governor. Dr. Penney's Ague Pills.

IN presenting the public with this remedy for the most troublesome of Western diseases, I am not unapprized of the opposition that it will at first meet; for the community has suffered much by the impositions and frauds practiced by the getters-up and venders of patent nostrums, specific remedies, and medicines professing to cure all diseases. So much have the people suffered from such infractions on their credulity, that it would seem foolish in any one, at this day, to introduce a specific for any Disease; but I do it, and do it too, sanguine of success. Having had ample opportunity to test the efficacy of the Ague Pills now presented to the public, I do assure it, that they have never failed to cure in one solitary case where the directions were strictly observed.

never failed to cure in one solitary case where the directions were strictly observed.

They seem equally as well adapted to Agues of long standing as more recent ones. I could adduce a great many certificates in support of what has been said above, as regards their success; but that would swell, unnecessarily, this publication — A few respectable witnesses are worth a host that are otherwise. See what Dr. John McRoberts, Druggist and Physician in Lawrence-burg, Kentucky, says, whose acquaintance with the Ague Pills is better than that of any other person.

This is to certify, that I have been selling Penney's Ague Pills all Agent for this place same some to my knowledge, the solitary instance that has come to my knowledge, the succeeded in curing the Chills and Fevers.
